

Penthera Secures Additional Patent for Video Download-to-Mobile Technology

Pittsburgh, PA -- Aug. 19, 2015 -- Penthera, a privately-held firm developing software products for the mobile video industry, today announced that it has been granted U.S. Patent 9,112,838 by the United States Patent and Trademark Office.

The patent describes how a smartphone, tablet, or other device can adhere to a set of rules governing when it may download video. The invention describes a part of Penthera's "Cache&Carry" product, which enables pay-TV providers, TV networks, and content owners to deliver rich media content such as TV shows, movies, and other videos to IP-enabled devices.

This is the 11th U.S. patent issued to Penthera.

"We're proud that we're becoming the de facto industry solution for video download-to-mobile and offline viewing," said Michael Willner, Penthera's CEO. "This patent grant affirms our position as the thought leader in this area."
